The last 12 months have been much more normal than recent years, with as many interactions in person as there are via email. I am continuing to enjoy putting OMs in touch with each other online and at events. Looking forward to our second Supper since COVID and seeing many familiar faces.

The mentoring scheme is approaching full speed now, thanks in no small part to the efforts of Graham Walker, our outgoing President. I am eternally grateful for his passion for the mentoring scheme but also for his co-operation as our Treasurer too.

More growth in our society member numbers over the last twelve months, no double bump this year, but still 76 new members (mostly from the class of 2022), hoping these larger joiner numbers continue, even if it means more emails for me to send!

Here's to another successful twelve months for all associated with the society.
